PROFESSIONAL SUMMARY

A motivated and detail-oriented frontend development professional with practical experience in designing, building, and maintaining responsive, user-friendly web interfaces. Possesses a strong foundation in HTML, CSS, and modern JavaScript, with the ability to translate UI/UX designs and wireframes into clean, functional, and accessible digital solutions. Experienced in collaborative development environments, contributing through code reviews, debugging, testing, and effective use of Git-based version control systems. Committed to applying industry best practices, improving performance and usability, and continuously developing technical skills to deliver high-quality, scalable frontend solution.

EXPERIENCE

Frontend Development Instructor– Foundations of Frontend Development Program November, 2024

- Designed and delivered structured frontend development curricula covering HTML5, CSS3, JavaScript (ES6+), and responsive web design, ensuring alignment with industry best practices.
- Successfully trained and mentored students from beginner to intermediate levels, improving technical confidence and hands-on coding competence.
- Led practical, project-based learning sessions that enabled students to build real-world web interfaces, increasing job-readiness and portfolio quality.
- Simplified complex frontend concepts such as DOM manipulation, flexbox, grid systems, and basic UI/UX principles, improving learner comprehension and engagement.
- Conducted regular code reviews, debugging sessions, and assessments, helping students adopt clean code standards and problem-solving techniques.
- Provided continuous academic and career guidance, supporting students in portfolio development, interview preparation, and best practices for frontend roles.
- Integrated modern development tools and workflows, including Git/GitHub, browser developer tools, and basic deployment processes, into teaching activities.
- Maintained high student completion and satisfaction rates through interactive teaching methods, clear feedback, and supportive learning environments.

Frontend Developer Intern – Alphacom September, 2024 – October, 2025

- Collaborated with senior developers to design and implement responsive web interfaces using HTML, CSS, and JavaScript, improving overall user experience across devices.
- Translated UI/UX designs and wireframes into functional, visually consistent web pages while maintaining brand guidelines.
- Assisted in developing and maintaining reusable frontend components, contributing to cleaner code structure and faster development cycles.
- Identified and fixed UI bugs and layout issues through testing and debugging, enhancing website performance and usability.
- Integrated frontend pages with backend APIs under supervision, ensuring accurate data rendering and smooth user interactions.
- Utilized Git/GitHub for version control, collaborating effectively within an agile development environment.
- Applied web performance and accessibility best practices to ensure cross-browser compatibility and inclusive design.

PROFESSIONAL SKILLS

- Technical Training & Mentoring
- Curriculum Development
- Code Review & Feedback
- Problem-Solving & Analytical Thinking
- Clear Technical Communication
- Collaboration & Teamwork
- Time Management & Organisation
- Continuous Learning & Adaptability

CORE COMPETENCIES

- HTML5 & Semantic Markup
- CSS3 (Flexbox, Grid, Responsive Design)
- JavaScript Frameworks – React, Next js
- DOM Manipulation
- Responsive & Mobile-First Design
- UI/UX Implementation
- Web Accessibility Basics (WCAG principles)
- Git & GitHub (Version Control)
- Browser Developer Tools
- API Integration (RESTful APIs – basic)
- Debugging & Testing
- Basic Deployment & Hosting

- Gained hands-on experience with real-world development workflows, strengthening problem-solving and teamwork skills.

Personal Assistant / Secretary – Pace Microfinance Bank

March, 2022 – July, 2023

- Provided high-level administrative and secretarial support to management, ensuring efficient daily operations and effective time management.
- Managed scheduling, correspondence, and meeting coordination, improving workflow efficiency and communication across departments.
- Prepared, reviewed, and maintained confidential documents, reports, and records in compliance with banking policies and data protection standards.
- Served as a key point of contact between management, staff, and external stakeholders, maintaining professional communication and client relations.
- Organised meetings, took accurate minutes, and tracked action items to support timely decision-making and follow-up.
- Handled filing systems (digital and physical), enhancing document retrieval and record accuracy.
- Assisted with basic financial and operational documentation, supporting regulatory compliance and internal controls.
- Demonstrated discretion, reliability, and attention to detail in managing sensitive information and executive tasks

EDUCATION

B.Sc. – Business Administration Bestower International University, Cotonou Benin.	2021
HND - Insurance The Polytechnic Ibadan, Oyo State.	2019
ND - Insurance The Polytechnic Ibadan, Oyo State.	2016
Secondary School Certificate Totland Secondary School, Ikorodu, Iagos State.	2014
First School Leaving Certificate Topville Private School, Ikorodu, Lagos State.	2007

Certifications

▪ Sail Innovation Lab <i>Full Stack Development Certificate</i>	2025
▪ National Youth Service Corps <i>Discharge Certificate</i>	2024
▪ Chartered Institute of Human Resource Management <i>Post Graduate Diploma in Human Resource Management</i>	2023
▪ Chartered Institute of Human Resource Management <i>Certified Personnel Manager</i>	2023
▪ Chartered Institute of Human Resource Management <i>Certified Associate of the Chartered Institute of Human Resource Management</i>	2023

HOBBIES

- Networking
- Frontend coding projects
- Learning new web technologies
- UI/UX exploration
- Mentoring and teaching
- Coding challenge
